

Hi All

As we know, we are looking for bowlers for next season. As suggested that we have a club night possibly on a Friday and invite interested parties. I suggest we charge a fee of £30 per person to show some sort of commitment and that's only if they take up the offer of signing for the first season only after then it will be as per normal membership fee , guys we really need to encourage a recruitment programme because we are very thin on the ground for players: myself and Phil were at a meeting for the Wednesday leugue and most of the sides have recruited big with sides folding from municipal clubs and I think our club should be more proactive in trying to recruit with our club being situated central to all districts this proposal is seconded by alick rayer
